

Accessories

A number of items are available to enhance the aesthetics and performance of **QuARTz by ACO** products.

Debris strainer

A stainless steel strainer is available to fit inside a **ShowerChannel** to collect hair and other debris. (Note that strainers will reduce the flow performance of the channels, particularly if not regularly cleaned.)

Grate lifter

Grate lifters are standard with each system and assist with grate removal during maintenance.

| Description | Part No. | Weight (kg) |
|-----------------------------------|----------|-------------|
| Debris strainer - electropolished | 4030050 | 0.2 |
| Additional grate lifter | 141096 | 0.1 |

Water activated LED lights

A water activated lighting system is available for **ShowerChannel** and **ShowerPoint**. These systems are purpose built to suit **QuARTz by ACO** products for illumination during showers and for a short time thereafter.

The illumination is based on simple circuit completion. During showers, water runs over the contacts of the LED units to close the circuit, thereby activating the lights.

The units do not require any wiring and on average will only need to be recharged every 3 months (based on a 15 minute daily shower).

The LED units are waterproof and available in a range of colours. They are easily removable for recharging and fit neatly beneath the grate.

*For Linéaire grates, a custom solution is available

| ShowerChannel – product description | Part No. | Weight (kg) |
|---|----------|-------------|
| Blue LED light kit | 45040301 | 1.5 |
| Red LED light kit | 45040302 | 1.5 |
| Green LED light kit | 45040303 | 1.5 |
| Rainbow LED light kit | 45040304 | 1.5 |
| Note: Weight includes 2 lights, charger and adaptor | | |

| ShowerPoint - product description | Part No. | Weight (kg) |
